

Rainbow Springs Wildlife Husbandry Manager

Ngāi Tahu Tourism hosts more than one million manuhiri (visitors) a year across our thirteen iconic businesses, with a fourteenth, the All Blacks Experience, due to open in 2020.

We're looking for a passionate and experienced Wildlife Husbandry Manager to lead a small dedicated team and manage the day to day operations of the husbandry as well as the environmental needs of all species at Rainbow Springs.

Rainbow Springs Nature Park is set in 22 acres of beautiful native trees and streams, Rainbow Springs is home to a variety of New Zealand's most precious inhabitants, including kiwi, trout, tuatara and native birds. Our nature park also features a kiwi hatchery and rearing facility - the country's largest and most successful kiwi conservation centre.

We take great pride in warmly welcoming manuhiri (visitors) to our experiences. Manaakitanga (hospitality) is one of the core values that drives the way we do business. As hosts, we care for our visitors and our team as our own whānau.

We offer not only a unique experience for visitors, but also an awesome place to work.

A little bit about you

We're after someone who has:

- 3+ years industry related experience (at a zoo or gained through environmental management, conservation or research)
- A tertiary qualification in animal biology, small population management, environmental science or other related discipline
- Demonstrated experience managing people and building effective relationships
- A strong understanding of ecological processes and wildlife population management
- Proven stakeholder management, project management and organisational skills
